

# Benzeni™ Pool Pong

Use the plastic rings to attach 6 Benzeni to each other as shown below. The 7<sup>th</sup> Benzeni floats freely in the middle of the others.

Arrange the cups so that the white cup is in the Benzeni in the center and the red and blue cups alternate around the outside ring.

Put some water into each cup so that the cup will float level in the water.

Each team (or person) selects a team color - red or blue.

Taking turns, each team tosses all 7 ping pong balls toward the floating arrangement. The team is awarded points for the following:

- 1 point for a ball landing in a cup of your opponent's color (ex: if your color is red, then you get 1 point for a ball landing in a blue cup).
- 2 points for a ball landing in a cup of your own color.
- 3 points for a ball landing in the white cup.
- No points are awarded for a ball that does not land and stay in one of the 7 cups.

First team to 21 points wins.

Alternate rules are encouraged. Have fun!!
